TUSHAR VERMA

Software Engineer

9981939820 • vermatushar0209@gmail.com • Linkedin.com/in/tushharverma • Indore , Madhya Pradesh

SUMMARY

Full Stack Developer with proven expertise in Java, Spring Boot, React.js, and JavaScript, developing and deploying responsive web apps. Skilled in RESTful API design, relational and NoSQL databases (MySQL, MongoDB), modern front-end frameworks, version control (Git), and data analytics using Python, Pandas, NumPy, and data visualization techniques.Continuously enhancing technical proficiency through hands-on projects and algorithmic problem-solving on coding platforms.

EXPERIENCE

Vijesha IT Services — Remote

Software Engineer Intern — 07/2024 - 01/2025

- Developed responsive and user-friendly web applications using modern technologies.
- Implemented clean, efficient, and reusable code following best coding practices.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Debugged, tested, and optimized applications to improve performance and reliability.

EDUCATION

Swami Vivekanad Collage of Engineering, Indore — Indore, India

Bachelor of Technology in Computer Science

SKILLS

Java, JavaScript, Python

HTML · CSS · TailwindCSS · React.js · Express.js · Node.js · REST APIs · MongoDB

Spring Boot · Hibernate · MySQL · GitHub · Vercel · Postman · Numpy · Pandas

PROJECTS

Expense Tracker

github.com/Tusharverma9981/khatabook-v2

- A secure full-stack ledger app for tracking personal and shared finances, featuring encrypted data storage and visual analytics dashboards.
- Built a Node.js/Express backend with MongoDB Atlas, secured using JWT bcrypt, with a React frontend styled using Tailwind CSS.
- Hosted the React frontend on Vercel and deployed the Node.js backend on Render, ensuring a responsive user interface and seamless expense tracking experience.

Hostel Marketplace Platform

github.com/Tusharverma9981/Hostle-App

- Developed a full-stack Hostel Marketplace platform using the MERN stack with secure JWT authentication and role-based access control for users and owners.
- Implemented scalable RESTful APIs to manage hostel listings, multi-image uploads with Cloudinary integration, and a complete review and rating system.
- Deployed the frontend on Vercel and the backend on Render with MongoDB Atlas for cloud-based data storage and production scalability.

CERTIFICATION

- Programming world — Core and Advanced Java
- Udemy — Full Stack Development
- CodeHunt Software Training — Spring & Spring Boot
